If you ordered these today like I did from Target.com, you could have them delivered to you by Friday for \$33.69.

The screenshot shows a Target.com checkout page. At the top, it says 'shipping' and 'you have 14 items shipping'. Below this, there is a product listing for 'Sharpie® Accent Highlighter, Bold Tip, 10ct - Multicolor' with a quantity of 1 and a 'save for later' button. To the right of the product is a shipping section for 'standard shipping' with a price of \$5.79 (marked as 'FREE \$5.19') and a delivery date of 'get it by Fri, Jun 1'. It also notes 'only ships with \$25 orders' and has a 'details' link and a 'change shipping speed' button. On the right side of the page is an 'order summary' table:

order summary	
subtotal (14 items)	\$27.70
delivery	\$5.99
estimated tax	\$0.00
<small>delivery &amp; tax for 22822</small>	
<b>total</b>	<b>\$33.69</b>

If you order on line for in store pick-up, this order would cost \$27.70 and they will have your order waiting for you on the date indicated when you choose your Target store.

If you choose to go shopping, some items on the list may not be available at all Target stores. Also, if you choose not to purchase what is listed, or purchase from another store, please make sure that the quantities, page amounts, pockets, etc. are the same. We chose these because of the quality of the plastic covers, durability, and amounts needed for the year.
